THE CRYSTAL ICE COMPANY

—The ice harvest commenced in dead earnest this morning, though for a week past active preparations have been in progress, and the work will now be speedily carried forward, and in about ten days all ice houses will be filled. A plow was put out to cut a good road across the ice and there will be no hindrances. The Crystal ice company has located a fine field a couple of miles out, and the quality of ice is above reproach and Petoskey may rest easy in the knowledge that she will have an abundance of the very best and most healthful ice for next summer.
