

***PETOSKEY EVENING NEWS***  
***PETOSKEY, EMMET COUNTY, MICHIGAN***

**Even then folks had their Resorter!**

This photo is believed to have been taken about 1902 when the County Court House {torn down a couple years ago for the new City-County Building} was the Petoskey City Hall.

The Daily Resorter was started in the summer of 1883 and was published summers until 1902 when the Petoskey Evening News came into existence as the newspaper switched from weekly to daily operation.

This horse-drawn delivery cart, the circulation man and his newsboys delivered the Grand Rapids Herald here mornings, the evening News afternoons. Lake Street wasn't yet paved, it was still a dirt track and underground mains hadn't yet been installed.

After many years in limbo, the Resorter was revived as the Graphic Resorter by the News-Review and it has become the north's biggest exclusively summer-resorter edition.
