WE'RE THERE AGAIN

Even Cheboygan Has to Admit That
Saville Sanitarium is as Good
as the West.

Petoskey has once more placed herself on the map, this time showing Cheboygan where we're located. You don't have to go west for your health—just come to Petoskey where Saville's sanitarium has a large quantity of the western healing quality bottled.

J. M. Hamill, who left for the west on a health-seeking trip some time ago, only got as far as Petoskey, where he was prevailed upon to try the baths in the Saville sanitarium, from which report has it that he is receiving great benefit. He has given up his western trip now and will return home after he has taken sufficient of the baths to get him feeling like himself of old again.—Cheboygan Democrat.
